a Vanaf 1999 is voor Nederland overgegaan op een andere bron (Council of Europe SPACE statistics). Het niveauverschil tussen 1998 en 1999 wordt grotendeels hierdoor veroorzaakt.

Tevens zijn vanaf 2010 jeugdigen, tbs-ers en vreemdelingenbewaring niet (meer) meegeteld. Dit is een belangrijke oorzaak van de daling tussen 2009 en 2010.

b Wegens wisselend gebruik van definities in de SPACE statistics zijn hier, om vanaf 2004 consistentie te krijgen, de aantallen zoals in Hoofdstuk 7 gehanteerd weergegeven

c Tot en met 1990: West-Duitsland; 1991: West-Duitsland en Berlijn; vanaf 1992 geheel Duitsland.
